

INDUSTRY-LEADING SAFETY CABINETS

America's choice for the storage of flammables and Other Liquids

Since 1967 these storage cabinets have been setting the pace for safety storage cabinets. A state-of-the-art production facility and creation of this new cabinet design incorporates many new convenience and safety features. Cabinets are now available from 4 gallons to 120 gallons with many sizes in between to meet your needs. Engineering staff work constantly to develop new cabinets to meet the ever changing needs of today's business, industry and laboratories.

We invite you to look at the many types of cabinets in these pages.

All steel cabinets meet NFPA Code 30 and OSHA specifications. Self-closing models meet Uniform Fire Code and NFPA Code One requirements.

Tower cabinets include 4" adjustable legs for the added benefits of:

- Placing cabinets over floor or wall ventilation
- Providing easy cleaning under cabinet
- Protecting the cabinet in areas where floor moisture is a concern
- Moving with a fork lift or pallet jack

DID YOU KNOW?

- Drum Safety Cabinets include drum support-guides in the bottom and 1 shelf (vertical cabinets only)
- Haz-Mat Cabinets include roller conveyors in the bottom, 1 shelf and Hazardous Waste labels
- Regulations require not more than 60 gal of Class I and Class II liquids and not more than 120 gal of Class III liquids in any one safety cabinet
