THE ULTIMATE REUSABLE PACKAGING FOR YOUR PRODUCT

Your Solution for Success

Welcome to pail products distributed by Clean It Up.

We have served from the largest to the smallest companies to their complete satisfaction, in their own words.

We intensely research and evaluate each and every product for quality, durability and reliability.

We have a reputation for being reliable and thorough, with exceptional service and follow through until those that use or consume our products and equipment are completely satisfied.

We are continuously searching for new technologies of value to our clients.

We have been involved in Environmental and Industrial Products, Equipment and Services since 1992.

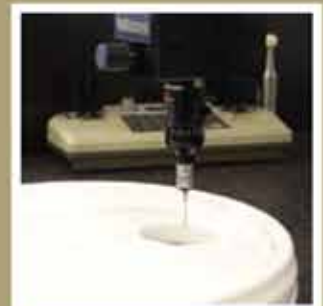

We also offer custom solutions where possible to meet the needs of special applications.

The founders and current management of our company have their roots in some of the best known Fortune 500 companies.

We strive to continuously improve all areas of our business and our products.

We welcome the opportunity to serve you.

Clean It Up is the marketing brand for products and equipment by Tri-State Services and Supplies, Inc.

QUALITY POLICY STATEMENT

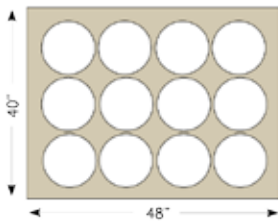

Clean It Up, will always strive to improve our products and manufacturing processes to completely satisfy the needs and expectations of each customer. We will deliver to them in a timely manner to meet their scheduled and provide quality products and services they can rely on. Each customer should benefit through our relationship.

The NEW GENERATION...Your Shipping Solution

Clean It Up knows freight cost is a vital part of the equation of doing business. We can help you lower that cost with the New Generation pail. The diameter, allows for fully tiered pallets, utilizing all available space and saving money.

The improved rim design allows for cleaner pouring straight from the container without drips.

Palletization of the 3.5, 5.0 and 6.5 gallon New Generation Pails

The New Generation Pail is available in five sizes.

The New Generation and Original pail and lid offer:

- Customer convenience with the user-friendly twist-off lid that seals and reseals for maximum product protection
- A Tamper Evident feature to secure the contents of the container
- A strong and durable High Density Polyethylene (H.D.P.E.) plastic to protect the product's integrity during shipment and use.
- U.N. Certified for Groups II & III
- Child resistant / Senior friendly

SEALING INFORMATION:

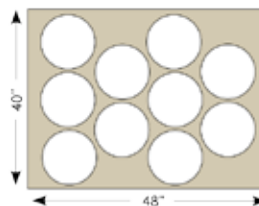

Further customization is available with two sealing options:

- The patented V-Groove seal (no gasket) allows chemicals or products to breathe.
- The black neoprene gasket provides an air-tight seal and is ideal for many products.

FDA CERTIFICATION: We can provide a package which will ensure that your product meets FDA requirements. As every case is individual, please contact us to discuss your needs.

The ORIGINAL Solution... The Life Latch® Container

In 1989 the first user-friendly pail using the Life Latch system was produced. Since then, more companies each year discover how to please their customers by offering their product in a pail that opens without tools or straining. And because the consumer opens the pail effortlessly without damaging the cover, it easily screws back on to reseal and maintain product quality.

Palletization of the 3.5, 5.0 and 6.5 gallon Original Life Latch® Pail

The Original Life Latch® container is available in these gallon sizes:

The M2/M4 Pail... The Traditional Solution

The M2 pail and lid offers:

- A grip it and rip it tear tab
- Metal or plastic handle
- Various fittings available:

spout fitting without cap

spout fitting with cap

tint plug fitting (commonly used for mixing paint)

screw cap fitting

vent cap

The ULTIMATE PAIL... The Liquid Solution

The Ultimate Pail for liquid offers:

- An original lever design that allows the twist-off lid to open and close with a vacuum-tight, moisture-resistant seal
- A sonically welded spout for improved product protection during shipping and storage
- Strong H.D.P.E. plastic for increased durability
- 20 liter capacity
- U.N. Certified for liquids

Customers will love the Ultimate Pail's unique lever design.

The BIOHAZARD Solution

We now offer **510 K CERTIFIED** containers in **3.5 gallon, 5.0 gallon and 6.5 gallon original style**. These pails have Biohazard labels with fill lines and medical inserts to prevent needle sticks.

- U.N. Certified for Groups II & III
- Rigid HDPE
- Leak Resistant
- Impervious to moisture
- Tightly sealed to prevent leakage during transport
- Puncture Resistant

The Custom Pail...Your Package, Your Way

Clean It Up can offer you the total package solution. Set your product apart from the others with a convenient package that makes a visual statement.

- Customize the color of your pails and lids.
- Display your company logo and text in up to eight colors.
- Heat transfer labels available for high volume runs.
- Our standard lid colors are **PMS 186 red**, **PMS 300 blue** and white.

We also offer 5.0 gallon black regrind pails. Call for availability.

All of our pails and lids can be colored to match any PMS number.

Our presses print up to 8 colors in one pass.

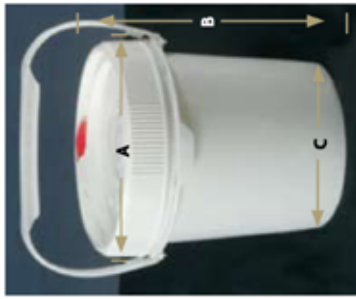

Heat transfer labels are available for high volume runs.
