

## Q-VAC™ 100

### WET VACUUM SWIFTLY REMOVES COOLANT FROM SUMPS AND CLEANS UP INDUSTRIAL SPILLS

The hard-working Q-VAC™ 100 wet vacuum thoroughly removes coolant from your machine sumps for optimal equipment operation and suctions all types of wet industrial spills to prevent injury and damage. And, it gets the job done quickly, quietly, and virtually maintenance-free, running on compressed air.

### MOUNTS TO YOUR STANDARD DRUM

Easy-to-use and highly reliable, the Q-VAC 100 pumps liquid directly into a standard drum for convenient storage or recycling. A liquid overflow shutoff valve ensures vacuum automatically turns off when drum is full.

### IDEAL FOR MULTIPLE APPLICATIONS

- Complete kits available
- Empty coolants from sumps
- Vacuum oil, coolant and other floor spills
- Remove surface decontaminates from process baths
- Empty tanks and drain pits
- Vacuum containers and vats absolutely dry

### MORE Q-VAC 100 ADVANTAGES

- Minimizes use of absorption materials
- Fits on a standard 55 gallon, closed top drum
- Requires no filters
- No moving parts to break or replace

### OPTIONAL EQUIPMENT:

- Explosion Proof Vacuum Kit
- Kit for Open Head drum
- Drum Cart
- Drum Girdle
- Deluxe Drum Vac Kit

Drum Vacuum mounted on a 55 gallon drum with optional drum dolly.

**NOTE:** If the Wet Vacuum is being used on oily spills, the *Mighty Mini Skimmer* is a good cost saving option. By removing oil from the waste water, the oil can be reused or easily disposed of. This drum mounted unit fits in the 2" bung hole. The *Mighty Mini* can also be used to remove oil from coolant after it has been vacuumed from hard to access sumps.
